

45,000 AN HOUR ON SUBWAY TRAINS

New Cars Constantly Being Received and Road Expected to Be Ready for Traffic Early Next May.

Officials of the Interborough Rapid Transit Company have announced that they expect to carry 45,000 passengers an hour during rush hours night and

VANDERBILT GIVES ADVICE TO MINISTERS AFTER MONEY

W. K. Vanderbilt, who generally likes to keep his charitable works secret, has just donated a large chunk of free advice to two ministers at Idle Hour, near Bayville, L. I.

The minister arrived at Idle Hour together and were seeking contributions for their respective churches. Mr. Vanderbilt greeted them cordially and they almost felt the contributions in their pockets.

"How many people are there in the community where your churches are located?" he asked.

"About three thousand," replied one of the ministers.

"And how many churches have you there?"

"Seven, of various denominations."

"Too many altogether," said Mr. Vanderbilt. "You are overburdened with churches. I advise you to reduce the number and cut down on the salaries of ministers, and learn to be self-supporting. Try the scheme. If you find it works I won't charge you for the advice. Good morning."

everything is being put in condition as rapidly as possible. It is expected the subway will be opened by May 1 next

and that the trains will be able to carry this maximum volume of traffic as soon as the road has been learned by the motormen and engineers.

No new work or additional lines will be attempted by the company until it is learned how much of a dividend earner the new subway will be.

GREAT SPORT ON THIS SLIDE.

Commodore Bourne Erects Large Toboggan Chute for Daughter.

Commodore Bourne, of the New York Yacht Club, has built a monster ice toboggan in front of his residence at Oakdale, L. I., for his daughter's use and those who visit there this winter will enjoy some great sliding.

The chute runs from the second story of the residence and is filled with blocks of ice. It carries as far as the shore of the lake and when the water is open a boat will be used instead of a sled.
